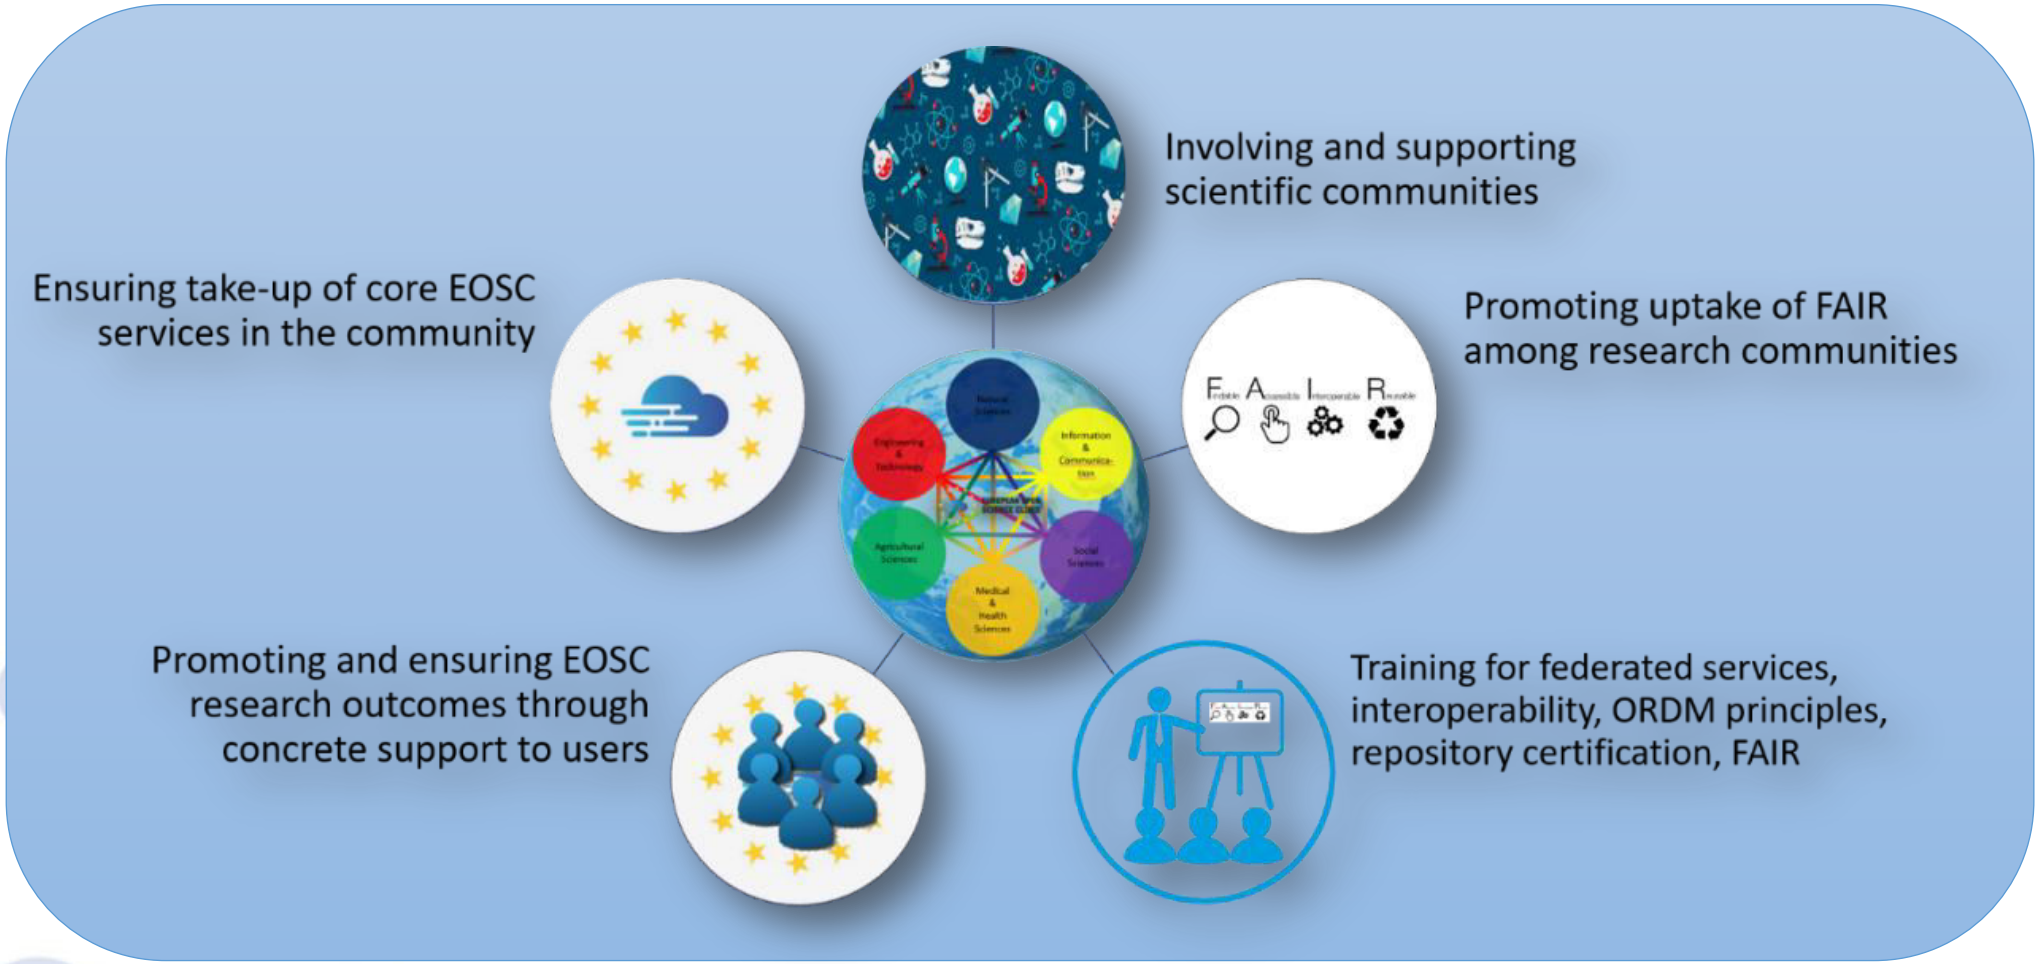
Mission of NI4OS-Europe

Support the development and inclusion of the national Open Science Cloud (OSC) initiatives in 15 Member States and Associated Countries in the overall scheme of EOSC governance

Spread the EOSC and FAIR principles in the community and train it

Provide technical and policy support in on-boarding of the existing and future service providers into EOSC

NI4OS-Europe WP6: User engagement, training, demonstrators



T6.3 – Support to EOSC service uptake and FAIR uptake in communities

- *"NI4OS-Europe and EOSC services accompanied with the uptake of imposing FAIRness needs to be promoted throughout the user communities directly involved in the project either as thematic service providers or as users"*
- First we analyse the outcome of T2.1 Stakeholder analysis & mapping on what has to do regarding EOSC and FAIR.
- Actions need to be adopted to raise awareness on such topics to the user communities of each country.
- Each country has identified a national EOSC promoter by **November 2019**
  - Task: to ensure demonstration of services integrated into EOSC as well as the understanding of the EOSC policies, FAIR best practices, access and usage policies.
  - Need to organise training events for EOSC promoters (train the trainers)

T6.3 – Support to EOSC service uptake and FAIR uptake in communities – Survey

- Objectives:
  - Bring NI4OS-Europe and EOSC close to user communities
  - Raise awareness on EOSC and FAIR principles
  - Identify ways of achieving the above

- Actions:
  - Analyze landscaping survey of T2.1
  - National ***EOSC promoter(s)*** as ambassadors
  - Guidelines for EOSC and FAIR data
  - Multilingual production of material
  - Incentives for supporting EOSC

EOSC Promoters characteristics

- The EOSC promoter should have an extended knowledge on Open Science, Open Access, FAIR principles etc
- Being able to contact and provide useful support to all different stakeholder profiles – supported by the partner organizations
- A role with high visibility in the relevant country so to contact stakeholders
- Being involved in related initiatives
- Good communication skills and proven ability to communicate to small as well as to large audiences
- Participate in all train-the-trainers events which are organized by the NI4OS-Europe consortium

We trained our EOSC promoters

- We have taken actions to train the EOSC promoters:
  - 16-17 March 2020, EOSC promoters - NI4OS-Europe Train the trainers event
    - Introduction to EOSC (Emma Lazzeri)
    - EOSC: Infrastructure and Services (Dusan Vudragovic)
    - EOSC & Policymakers, Legal issues. National implementation & actions to be taken (Tsiavos & Spiliopoulou)
- They participate in all train-the-trainers events:
  - FAIR data principles
  - ORDM
  - On-boarding
  - How to host a successful virtual event?
  - IT-Service Management (ITSM)
  - Introduction to domain specific DMP
  - Tools and examples for building NOSCIs
  - NI4OS-Europe Open Call
  - The future of EOSC

Monitoring the process

- Frequent meetings:
  1. 15th of January 2021
  2. 12th of April 2021
  3. 16th of July 2021
  4. 22nd of October 2021
  5. 19th of January 2022
  6. 22nd of February 2022
  7. 8th of April 2022
  8. 15th of June 2022

Actions of EOSC Promoters

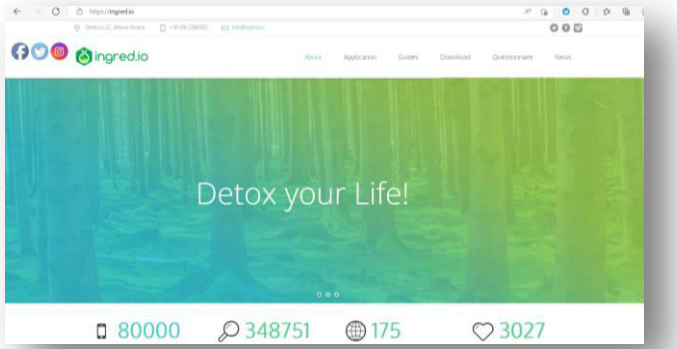
Nyílt tudomány és az EOSC a gyakorlatban

Challenges faced by EOSC promoters

- Need to clarify between definitions
- Media ignored EOSC Promoters
  - We needed to change to a more popular tone
  - We used catchy thematic services to attract the attention
    - For instance Zoe's service Ingredio (http://www.ingred.io/)



- Covid-19 has introduced communication difficulties
  - Hard to have an appearance in Scientific events. Time restrictions do not allow EOSC promoters to "intrude" into purely scientific workshops/conferences.
  - It would have been much easier if events were in person (after Covid-19)
- A necessity to provide more exposure to our EOSC promoters -> Webpage
